

Student Satisfaction Survey (SSS) on overall institutional performance for the Session 2017-18

A survey on Students' Satisfaction has been done through feedback & questionnaire forms. Students have given their secret feedbacks on the performance of various departments & administration, on the teaching ability and sincerity of teachers, on examination process, infrastructure & facility in the institution. They also have given their views on improving the various aspects available to them.

The results and details of the feedbacks are analysed extensively. The shortcomings are taken care of by the administration in the current session.
